

Welcome to Thames Underwriting

We are a new Underwriting Agency with a refreshing approach focusing primarily on the Construction Industry.

We place great importance on building long term relationships with our broker partners and our in-house Underwriters are there to provide immediate decisions.

Our online trading platform is simple, efficient, providing quick quotes and immediate cover with point of sale documents. Although we are system driven, our philosophy is 'Let's Talk', working closely with our brokers... to win the business, all insured with an A- rated Insurer (A.M. Best).

We will consider most Construction Trades including High Risk.

Let's do business...
